

## Coaxial Attenuator 40db, 2watt SMA (M/F)

| Electrical data       |  | Requirements     |         |
|-----------------------|--|------------------|---------|
| Frequency range       |  | DC-6Ghz          |         |
| Impedance             |  | 50Ω              |         |
| Nominal Attenuator    |  | 40dB             |         |
| Power Input           |  | 2Watt            |         |
| VSWR Maximum          |  | 1.25:1           |         |
| Mechanical data       |  | Requirements     |         |
| Durability (mattings) |  | ≥500             |         |
| Material data         |  | Requirements     |         |
| Connector parts       |  | Material         | Plating |
| Body                  |  | Stainless steel  |         |
| Pin contacts          |  | Beryllium copper | Gold    |
| Insulators            |  | Teflon           |         |
